Press Release

ITU ONLINE ADMISSIONS TO CLOSE ON FEBRUARY 3

Lahore, January 30, 2018

The deadline for submitting online admission applications at the Information Technology University (ITU) of Punjab for programs BS Economics with Data Science, BS Management & Technology, BS Computer Science and BS Electrical Engineering is Sunday, 3rd February, 2018. Prospective applicants can apply online at https://application.itu.edu.pk/ while admission tests for eligible students are scheduled for February 17, 2018. This first cycle is for undergraduate programs starting in Fall 2018.

The Applicants who have successfully completed their F.A./F.Sc./A-Levels/High School Diploma or International Baccalaureate, or will do so by Aug./Sept. 2018, are eligible to apply to the BS programs.

The new BS Economics with Data Science degree ensures a thorough grounding in economic principles and quantitative analysis. It will equip students to pursue careers in evidence-based policy making and addressing political and social questions using data analysis. The ITU BS Management & Technology is a unique program which combines technology and business management skills. They will interact with entrepreneurs and managers, gain experience through internships and rigor through an extended project. The ITU BS Computer Science degree aims to impart a research-oriented and design-centered computer science education to students, and thus produce innovators and IT specialists who will transform the IT landscape of Pakistan.

ITU's BS Electrical Engineering degree program seeks to impart a research-oriented, state-of-the-art education to the next generation of electrical engineers. The BS EE program will equip ITU students with the fundamentals and practical knowledge which will enable them to contribute to sectors including energy, health, computing, networked communications, environmental monitoring and information security. All queries can be forwarded to admission@itu.edu.pk.
